Live Kingdom Calculation

Result measure by growing percentage.

Example A (Profit)

- Beginning Balance: 10,000 USD
 - Ending Balance: 40,000 USD
- $[(40,000-10,000) / 10,000] * 100 = 300\%$ gained.

Example B (Loss)

- Beginning Balance: 10,000 USD
 - Ending Balance: 6,000 USD
- $[(6,000-10,000) / 10,000] * 100 = -40\%$ gained = 0% total gain.

*Player 2 gained the higher point; Therefore, Player 2 is the winner of this round.
